MARIO KART 7™

Features

The Mario Kart franchise continues to evolve. New kart abilities add to the wild fun that the games are known for. On big jumps, a kart deploys a glider to let it soar over the track, and possibly take a shortcut (in some cases, it is the only path). When underwater, a propeller pops out to help the kart cruise across the sea floor.

Players can show their own style by customizing their vehicles with accessories that give them a competitive advantage. For instance, giant tires help a kart drive off-road, while smaller tires accelerate quickly on paved courses.

Players can compete against friends (either locally or online with your Friend List) and against people from around the world with online matchmaking or by joining or creating a Community.

People can choose to race as one of their favorite Mushroom Kingdom characters or even as their Mii™ character.

New courses take players on wild rides over mountains, on city streets and through a dusty desert. Nintendo fans will recognize new courses on Wuhu Island and in the jungles from Donkey Kong Country™ Returns.

The game supports both SpotPass™ and StreetPass™ features.

Do you have what it takes to build a business empire?

Players become familiar characters from the Nintendo and DRAGON QUEST universes in a digital board game that challenges them to play the real estate and stock markets wisely to win. Players race around the board trying to accumulate wealth and hit a target value while buying, selling and trading property with friends and family to see who can be the first to cash out. What appears at first to be a simple property-buying game offers multiple levels of money-maximizing opportunity.

Players can choose to play as a variety of Mushroom Kingdom characters, as DRAGON QUEST characters or even as their own Mii™ characters.

More than 15 game boards with different shapes and layouts are available to provide endless replay value.

The beginner setting called "easy rules" helps newcomers learn the basics, while the more advanced, "standard rules" introduces more challenges, deeper strategy options and the ability to play the virtual stock market.

Play against friends with the Nintendo® Wi-Fi Connection*.
